SUMMARY

A Computer Science graduate with 8 months of hands-on professional experience in building websites and mobile apps using React.js, React Native, Node.js, and MySQL. Worked as an Intern Chatbot Developer and currently working as a Technical Engineer, delivering real-world projects involving secure authentication, database management, and responsive UI development. Comfortable working in Agile teams, collaborating with designers and QA, and shipping features on time. Looking for a software development role to further grow my skills and contribute to impactful products.

EDUCATION

Bachelor of Technology - Computer Science
Malla Reddy University • 2025 • Hyderabad • 8.3 CGPA

Intermediate

SR Junior College • 2021 • Warangal • 88.3%

SSC

D.A.V Model School • Palvancha • 2019 • 87.4%

EXPERIENCE

Intern Chatbot Developer

AURUMITECHNOLOGYPVTLD, Hyderabad
FEBRUARY 2025– MARCH 2025

- Developed an intelligent chatbot using Rasa Framework, Flask, React, and Pinecone Vector Database.

Technical Engineer

Cyepro Solutions (currently working).
August 2025

- Built highly reusable modular UI components, reducing development effort for new features by 25–30%.
- Implemented Redux Toolkit + AsyncStorage for predictable state management and local persistence, improving data reliability.
- Designed and implemented a scalable navigation architecture using Stack and Bottom Tab navigators, ensuring smooth page transitions and easy feature expansion.
- Collaborated closely with QA/design/product in Agile sprints, contributing to feature planning and test strategy.

PROJECTS

Portfolio Website

June 2025 - August 2025

- Engineered a responsive, high-performance personal portfolio with a mobile-first design, utilizing
- Next.js, React, and TypeScript for a type-safe, component-based architecture, and Tailwind CSS for a modern UI.
- Enhanced user engagement by integrating dynamic animations (tsParticles, AOS) and developed a full-stack contact solution with a Next.js API route for backend processing and email delivery via Nodemailer.
- Deployed the application on Vercel, enabling fast global delivery, serverless API handling, and continuous deployment from the Git repository.

Chanda Website

October 2025 - December 2025

- Built a full-stack Chanda (Donation) Management Dashboard using React.js, Node.js, Express.js, and MySQL to track and manage member contributions
- Developed a public-facing React.js search portal where anyone can look up and view member donation records in a clean, card-style layout.
- Implemented a secure admin panel with JWT (JSON Web Tokens) authentication and Bcrypt password encryption to protect all CRUD operations on member records.
- Designed RESTful API routes using Node.js and Express.js connected to a MySQL database pool for efficient and reliable data management.
- Ensured end-to-end security by validating JWT tokens on every protected API request before allowing any access to the database.

SKILLS

- **Mobile Development** : React Native, Expo, Redux Toolkit, Navigation (Stack/Tab)
- **Frontend & Web** : ReactJS , JavaScript (ES6+), HTML5 , CSS3 , NextJs
- **Backend** : Node.js
- **Database** : MySQL , Supabase
- **Deployment** : OTA Updates , Vercel
- **Networking** : Axios, Fetch
- **Storage**: Async Storage , Zustand
- **Tools & Version Control**: Git, GitHub, Postman, VS Code, Antigravity, Reactotron
